

Grant Thornton

Flow

Powered by Grant Thornton France

An exclusive and dedicated platform for managing your business in real time

New regulatory requirements, faster-paced transactions, and a greater need for visibility are all factors that require an effective **management of your business and the need to make the right decisions:** companies are now navigating an **increasingly demanding environment.**

To give you ever greater support, Grant Thornton can now offer you a **new, innovative management platform:**

One that simplifies your financial management:

The management of your invoicing, cash flow, and payment cycles

That allows you to oversee and direct your performance:

A visibility of your key indicators (revenue, margins, cash flow, etc.) via customisable widgets

That centralises and secures your data on a single platform:

Organised archiving and storage

Where you can benefit from simplified and streamlined follow-up:

The centralisation and traceability of business exchanges with our firm

The benefits and strengths brought to your business:

Enhanced visibility on your business operations

Gain a clearer view of your business to improve management and planning

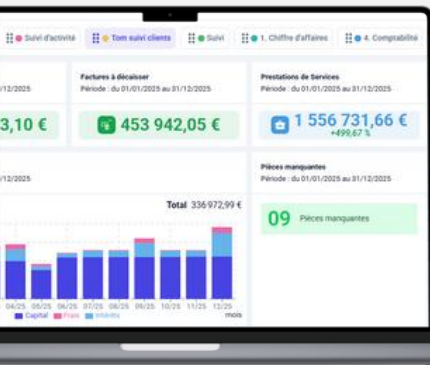

Renewed focus on your core business

Streamline and quicken your administrative processes to simplify your day-to-day operations

Assured regulatory compliance

Navigate regulatory reforms with confidence thanks to an integrated AP*, a defined and controlled framework

*AP: Approved Platform

We are at the heart of the business process

This approach puts the **relationship between Grant Thornton and our client at the heart of the platform:** we simplify the processes involved so you can focus on managing performance and making strategic decisions.
